### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6, 8-14, 17-18, 21, 27 and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by St. Goar et al. (6,629,534). St. Goar et al. disclose a method of repairing a mitral valve in the heart of patient comprising the steps as claimed (col. 16, line 12 to col. 18, line 46, col. 21, line 25 to col. 31, line 7).

### ***Allowable Subject Matter***

4. Claim 20 is allowable. Claims 7, 16 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art fails to disclose a staple device including jaws actuated by balloon such that inflation of the balloon deploys a staple through the leaflets.
